

CANCER RESOURCE CENTER OF WESTERN MAINE

COMFORT & SUPPORT

when you need it most

HOW WE CAN HELP

If you've been diagnosed with cancer, we are here to comfort you on your journey with supportive resources you may need along the way. All resources are provided at no cost to anyone who is impacted by cancer.

Our dedicated oncology social worker and cancer resource navigator are available to meet with patients and their families to help with financial needs such as food, travel, insurance, and heating assistance. They can also help you navigate any other social, emotional or physical barrier you might be facing.

WE ALSO OFFER.....

Live Well Program

Complementary therapies, such as massage, reiki, reflexology and therapeutic yoga are used along with conventional medical treatment to help cancer patients reduce stress and cope with treatment. We offer access to these therapies at no charge on a limited basis for cancer patients and one caregiver.

Wig Fittings

We have a large stock of new and refurbished wigs available in a variety of colors and styles. We want you to look good and feel good.

Comfort Items

Handmade "comfort" items such as cotton beanies, winter hats and scarves, knitted afghans, HUG quilts, rice bags, and more all created by local community members with big hearts. There is also a soup-to-go program for patients in treatment.

OUR MISSION

We embrace anyone affected by cancer in a community that offers hope and caring through support, education and concepts in healthy living.
